EDITORIAL

The Year of the Snake in 2025 Brings Vitality and Wisdom as Hot Games Annual Teams Up with GTI Taipei Expo for a Grand Comeback

The Year of the Snake in 2025 symbolizes agility, stability, and the ability to seize opportunities, heralding a prosperous year ahead. Since 2005, the Hot Games Annual has served as a vital bridge connecting Asia's amusement and gaming manufacturers and suppliers with global markets. This year, we introduce a brand-new section — the **Buyer's Guide**, which highlights Taiwan's supply chain, including physical game machine manufacturers, spare parts suppliers, and game developers, showcasing its ambition to expand onto the international stage.

Taiwan plays a pivotal role in the global gaming market, with claw machines, slot games, fish games, and related spare parts being key products sought after by international buyers. As market competition intensifies and the demand for innovative business models grows, the industry continues to push forward with product upgrades and technological advancements. Additionally, pinball machines, which originated in Taiwan's night markets and cater to players of all ages, are increasingly gaining popularity in indoor venues.

After a four-year hiatus, the GTI Taipei Expo is making a strong comeback and is set to take place in 2026, fully showcasing Taiwan's innovative strength in the gaming industry. This event will be co-hosted by Hot Games, with promotional activities kicking off soon. The collaboration is expected to draw global attention and mark a new chapter for Taiwan's gaming sector.

Playground Operation Model Seeking Innovation and Change

The new business model of claw machines combined with shopping malls allows the charm of claw machines to continue indefinitely.

The operation model of claw machines has evolved from the early self-service store type to a rental model that saw explosive growth starting in 2016. Following this, in the post-pandemic era, a snack venue emerged in 2023, triggering a wave of new store openings in the market. These are business models created by domestic operators to break through the fierce competition. Some operators have rented large spaces, adding not only merchandise vending machines but also pinball machines and rocking horses that have passed commercial evaluations, as well as children's play areas and rest zones, creating a brand new type of indoor parent-child amusement park.

New Business Model for Claw Machines

In 2024, claw machines remain the most discussed topic, with intense market competition and a demand for innovation in business operations. From traditional unmanned stores to snack venues, new business models combining

arcade machines, dining, and shopping malls allow the charm of claw machines to continue indefinitely.

Similar to the popular snack venues featuring claw machines, both stores integrate claw machines with new business models. In the stores, customers can not only grab toys but also exchange the items they win for points to redeem for more needed items. In addition to daily necessities, there are stationery, socks, hats, toys, and even frozen foods, providing consumers with a better gaming experience.

Cross-industry collaboration to create business opportunities – Subheading

In order to attract consumers, claw machine operators must seek new changes and launch limited-time activities. A claw machine store in Tainan collaborated with a bakery, offering freshly baked popular Russian bread as the prize, attracting people to play. During the Dragon Boat Festival holiday, they also launched a zongzi

Claw machine stores collaborate with bakeries to launch a bread grabbing event.

clawing event, and previously had events for clawing pomelos and eggs, creating buzz to attract consumers.

Although there are many people in the bakery, you can buy bread once you pay. However, in a claw machine store, although you don't have to jostle with others for bread, paying does not guarantee you will get bread, yet it is still full of appeal, enjoying the fun of clawing.

The marble table creates a chain brand – subtitle

Playing marbles is a game suitable for all ages, originating from night markets, and now it is popular to play marbles indoors. The nostalgic night market game has moved indoors, unaffected by the weather, and there are many chain brand stores that recreate the charm of the marble table through promotions on FB, YOUTUBE, and IG.

Usually, the customer base of night market marble shops consists mainly of children and

families. With the indoor venues, friends, couples, and families can all enjoy it. Inside the store, they are not affected by the weather, and during the hot summer days, they can enjoy air conditioning without sweating profusely.

The indoor marble tables have larger spaces and a wider variety of machines, offering both lottery tickets and marbles, with lottery tickets redeemable for prizes. Unused marbles can be stored for the next visit. As long as you join Line, both lottery tickets and marbles will be recorded in your personal account. Additionally, some stores offer special activities, such as playing claw machines or spinning wheels after reaching a spending threshold, stimulating consumption. Prizes are also one of the factors that attract customers, with stores displaying a variety of prizes, such as figurines, cartoon character merchandise, small appliances, etc., all of which have a chance to be taken home.

Indoor marble tables are currently popular.

GTI Taipei Exhibition makes a strong comeback after four years, showcasing Taiwan's innovative strength to the world

The only commercial arcade game industry exhibition in Taiwan, organized by the Republic of China Taiwan Commercial Electronic Game Machine Industry Association (TAMA) and the Taiwan Digital Leisure and Entertainment Industry Association (TDEA), the "Taiwan International Arcade Game Machine Exhibition" (abbreviated as GTI Taipei Exhibition) was held from April 26 to 28 at Taipei World Trade Center Hall 1. This marks the first official return of the GTI Taipei Exhibition since it was suspended in 2020 due to the COVID-19 pandemic, bringing together the upstream, midstream, and downstream sectors of Taiwan's commercial arcade game industry to showcase Taiwan's game development and manufacturing capabilities.

IGS showcases multiple racing games.

Information station Hot Games promotes products on-site and distributes special publications.

FATENG debuts the giant claw machine for the first time.

FEILOLI's Mr. Yang introduces the new product - JJ BOT robot claw machine.

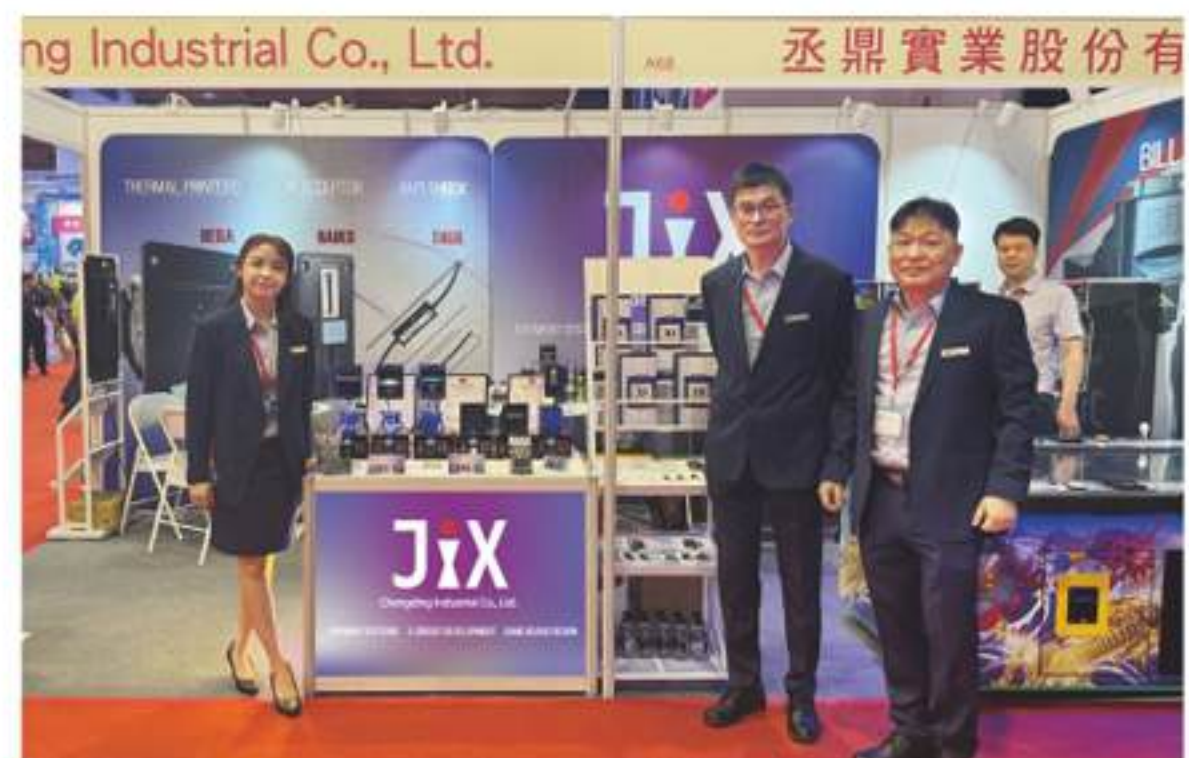

BingoTimes showcases E-BINGO, which has been exported to Southeast Asia and countries like the Philippines.

The gaming industry showcases innovative and creative operational soft power

President Tsai stated in her opening speech that over 90% of the revenue in the electronic gaming industry now comes from exports, with export destinations reaching over 70 countries, and last year's output value exceeding 30 billion NTD. Taiwan's electronic gaming industry is thriving, demonstrating Taiwan's innovative strength to the world, and the various machines displayed today are remarkable achievements.

This year's industry chain features over fifty exhibitors, with the largest being IGS (International Games System) showcasing multiple new arcade games, including racing games "Wild Speed 9 - Racing Legend DX", "Extreme Snowmobile", "Wild Speed - Lightning Motorcycle DX", "Speed Rider 3 DX", shooting game "Monster Catastrophe 3", motion-sensing games "Kamen Rider: Justice Transformation", "Ultraman Series: Transformation Battle", and arcade experiences that combine large arcade machines with virtual reality games "Wild Speed 9 - Racing Legend VR", "Treasure Voyage VR", "Victory Motorcycle VR", as well as many other family-friendly arcade machines, providing visitors with the opportunity to experience fun arcade gaming.

JIX-Solutions participates in the exhibition for the first time, showcasing multiple banknote machines.

In addition, major claw machine manufacturers such as FEILOLI Electronic, Paokai Electronics, FATENG Amusement, and Youal-Jifh Technology have also brought a variety of claw machines, along with various machines from other manufacturers including marble tables, sticker machines, slot machines, coin pushers, bingo machines, and American-style claw machines, as well as cash machines, coin counting machines, cash dispensers, card issuing machines, frames, screens, and wiring products, aiming to combine innovative and creative operational soft power to let the world see that Taiwan is not only about electronic wafers and technology industries, but also has a unique global business model that drives the consumption economy of recreational and educational products. 🌟

KWANG YI

Taiwan's Leading Manufacturer of Pinball and Mario Machines

KWANG YI TECHNOLOGY DEVELOPMENT CO., LTD., was established in 1993, initially focusing on the professional development of a series of pinball machines, such as Bingo Pinball Machine and 888 I and II Pinball Machine. With market demand and continuous innovation in machines, the company has gradually developed Mario machines and screen-based products, such as Golden Mary Mario Machine and The Rings, which have received enthusiastic praise from consumers. All products are independently researched, designed, produced, and manufactured by the company. With over 30 years of rich experience, our machines emphasize high quality and excellent after-sales service, gaining recognition not only in Taiwan but also achieving success in markets across Central and South America, Africa, and Southeast Asia. We continue to develop other overseas markets. In the Taiwanese market, we hold the top market share and are the designated manufacturer for several well-known chain pinball stores, driving a wave of business opportunities in Taiwan!

Currently, main export products include:

- Pinball Machines and Mario Machines
- Roulette, Prize Machines, Happy Balls
- Screen Machines, Slot Machines, and Parts

Our company's various machines can be customized to meet the needs of domestic and international market clients, committed to continuous innovation, improvement, and quality in developing new machines. This creates new business opportunities, making KWANG YI's products more competitive in the market and satisfying diverse customer needs, while also providing attentive service without boundaries.

We offer a wide range of products. If international clients are interested in our offerings, we welcome domestic and foreign agents, distributors, or partners for market development. For those interested in developing new machines, if you provide your ideas and requirements, we will do our best to help make your dreams come true, achieve your goals, and create the greatest business opportunities and profits for both parties. We sincerely invite you to contact us by phone or email.

Technology Support Kingdom Min Yan Technology Co., Ltd

T.S.K was founded in 1980, and has been positioning as a leading game design group in Taiwan. We have been striving to develop our own brand for all these years, and we have made it! Due to reasonable pricing and quality entertainment, our sales record has been outstanding.

Our registered trademark T.S.K represents Technology, Support and Kingdom, which also refers to our second goal of offering professional post-care service by employees with rich international marketing and management experience. Our innovative approach allows us to design unique games that fit the local market as required by clients. The high quality of our products has made us one of the most well-know game design companies in Taiwan, and our products are popular in many foreign countries as well.

T.S.K has accumulated many hit products, which helped cultivate solid RD experience. These strengths allow us to reach our ultimate goal of serving our clients to the best of our abilities.

OUR PRODUCING CAPACITY

TSK offers the best products and keeps improving design of both inner and outer side of machines, and develops various machines. Besides, we have high quality an well capacity. Furthermore, we pay much attention to our procedure management. Due to years of experience, we have cautious quality control on every step including game plan, circuit design, mass-production, assembly, modifying of motherboard chips, testing, packing and exporting to make everything successful and perfect.

We are confident that we are certainly able to make products which match customers' requirement with honest, immediate and responsible service of all members.

OEM CAPABILITY

We accept OEM and ODM manufacture production. Our employees will be enthusiastic for the customer consultation. After consultation, we will use our technique to satisfy customers' demand. In addition, we focus on after-sales service. When our customers receive our merchandise, we must track that if everything is in good order.

We sincerely welcome you to be our customer!

We Provide You with One-stop Services

Information Kiosk

Cabinet Design / Engineering Optimization:

We can improve the cabinet, optimize your mechanical design, and design the assembly wiring structure together.

Assembly / Machine Power Distribution Integration:

System Assembly Testing & Cable Integration Manufacturing

Industrial Display Design and Manufacturing (Touch / Non-Touch):

- Screen Sizes: 19"~ 49"
- Embedded Full Flat Panel Display
- Aluminum Extrusion Full Flat Panel Display
- RGB LED Surround Effects Display

Kiosk Software Design:

Payment, advertising, self-check-in, and other multimedia kiosk software.

FP58

FP58 Thermal Printer

- QR code display the credit and points.
- Build-in clock to pre-set up the local time.
- Deletable daily and summery report.
- Typesetting function for designed document formats, trademarks, etc.

Ticket In and Ticket Out (TITO) System : FPB66 & BRP70

FBP66 Thermal Printer –

- Barcode voucher with credits display for gaming printer.
- RS232 port for firmware update.

BRP70 Bill Acceptor –

- Can validate both banknote and barcode voucher.
- With TOP developed Barcode System, easily manage all the fields accounts.

TCA — Coin Acceptor

- Low power consumption
- Self-Teaching mode
- 16 channels for multiple currencies acceptance
- Can operate in high temperature environments

XC200 — Note Dispenser

- Speed: 10 bills /3 second
- Dispensing Type: Single – Continuous
- Small in size but large in capacity (approx. 800 pcs of bills)

WEI-YA

維亞

www.weiya.com.tw

HUAI I Precision Technology, established in 1983, upholds a spirit of continuous innovation and is committed to enhancing product research and manufacturing technology. In response to the rapid development of the overall industry, we integrated with leading suppliers in the upstream and downstream supply chains in July 2006 and relocated our headquarters to the Tainan Science Park. The new facility covers an area of 13,230 square meters, with a total floor area of 22,810 square meters.

We have established assembly lines, complex laser machines, laser processing machines, folding machines, automatic tapping machines, CNC machines, powder and liquid painting equipment, and more. We also offer a one-stop service that encompasses development, design, manufacturing, and assembly. Our product range includes monitors, electronic paper applications (EPD), gaming machines, vending machines, cabinets, power supplies, coin selectors, and other products, marketed across multiple countries worldwide.

HUAI I Precision Technology provides one-stop integrated services from R&D, design, sheet metal, and painting to assembly. Our products cover screen displays, electronic paper applications, gaming consoles, vending machines, cabinets, power supplies, and coin selectors, and are distributed globally. In 2020, three listed companies, including DARWIN PRECISIONS (AUO Group), IBASE Technology, and Ligitek Electronics, invested and participated with us to introduce key components, panels, industrial computers, and other important resources to strengthen product competitiveness.
